

LIGHTBENDER LAMINARS

illuminati's LIGHTBENDER is the brightest light water feature product line available in the market today. It is 10x brighter than any industry leader laminar.

The LIGHTBENDER outperforms any lit water feature in the world today by virtue of its brightness and distance.

your own bellagio in the back yard

Lightbender Laminar with LED produce clear or lighted arcs of water as they silently enter your pool or spa. Lightbender Laminar Jets with LED create spectacular backyard water entertainment with dazzling nighttime lighting effects.

FEATURES:

- Water arcs reach up to six feet high and project out six feet into your pool, spa, or other water feature.
- Installation is made flush to your deck or other surface; no unsightly or unsafe edges, just the magic of water erupting from a hidden source.
- Nighttime color effects include the ability to hold a steady color or control through a range of available colors. A Serial, color-changing LED lighting system is at the heart of the Lightbender Laminar. It has a variety of distinct programs—synchronized, random, party and can freeze on a single color.

Lightbender Laminar create totally clear, uniform arcs of moving water that originate from either your pool deck or surrounding landscape. At night, these translucent streams are brilliantly colored with an LED light source. The result is a water effect that adds an elegant bit of entertainment to your poolscape.

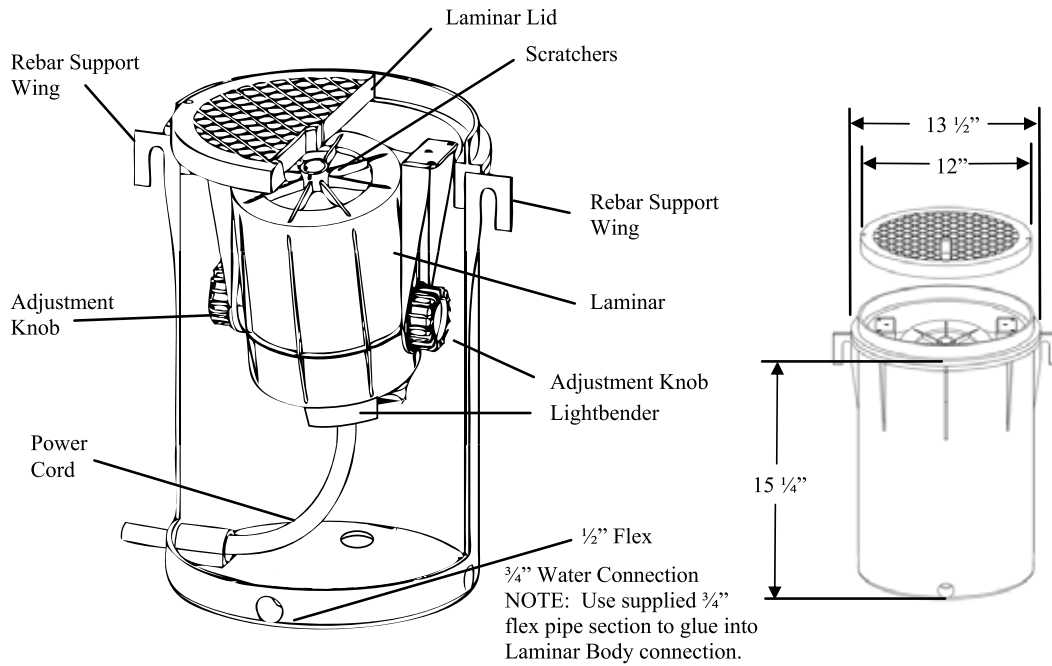

DRAMATIC colors at night

The LIGHTBENDER can transform the simplest of pools or architectural projects into a showplace, day or night..

BRIGHTER than any other

The LIGHTBENDER adds a splash of color and excitement to the nightlife of any pool, spa or water feature.
