

FIBER OPTICS GALAXY SPILL & FIRE POTS

Whether you want to add a one of a unique style to your home, or create a special ambience for special occasions, Illuminati's fiber optic spill and fire bowls are the perfect solution. These fiber optic bowls are great decorative pieces for creating an ideal focal point that will provide a magnificent source of light and heat.

available in either
automation or
manual operation
using iluminati's
ION-SERIES

Illuminati's Fiber Optics Pool Spill and Fire Pots are used to create water features in pools, ponds and anywhere you want water to spill and light up.

We fabricate unique concrete fiber optic pots with single, double and triple scuppers. We also have NEW LIGHTWEIGHT fiber optic pots that are beautiful and also easy to transport, and install.

Illuminati's Fire pots come in all shapes and sizes and will fit in most any space, large or small. Starry sparkles and dancing fire demands attention as the focal point of a backyard or it can simply accent your outdoor design. Have fun creating your own outdoor experience with our one of a kind fiber optic fire pots.

A GRAND effect at night

add style to your home, or create a special
ambience for special occasions.
